

Expressions

by design

"We make you look and feel your best!"

Jen Vos always dreamed of owning her own salon and on September 8, 2005 she opened Expressions by Design. The eclectic décor offers a welcoming environment for men, women and children. The shop's interior uses muted colors and clean lines to create a casual, contemporary look and the use of aluminum valances and toolboxes will make even the most manly man feel welcomed.

Jen and her staff have over 65 years of combined experience and two of the stylists are certified Redken color specialists. The stylists love getting to know their clients! Through their combined professional skills, knowledge and expert use of quality products they will ensure that all clients *look and feel their best!*
