**Add a “P.S.” to Help a Neighbor**

They are your friends. They are your neighbors. Some of them may have trouble paying their heating bills this winter.

Project Share is a plan created by the City of Pella Electric Department to assist needy households in paying their winter time energy bills. You can help by adding a regular PS contribution to your monthly utility payment, or by making a direct donation to Project Share. There, funds will then be distributed to neighbors in need for wintertime energy costs.

Those qualifying for help will be carefully identified by an area social service agency. A local committee will oversee Project Share to guarantee all contributions will be handled equitably and efficiently.

So please, add a PS - Project Share - to your utility payment each month. It’s a simple way to share warmth with those who need it.
